SOLUTIONS FOR
INDUSTRY
4.0

We are proud to announce that the 11th edition of the biennial INDIA MACHINE TOOLS SHOW along with concurrent shows AUTOMATION & MANUFACTURING TECHNOLOGY SHOW and 9th INDIA TOOLS will be held in the Indian capital to showcase the latest technology advancements in the tools and technologies of production from global and Indian capital goods & engineering industries.

Viksit Bharat 2047 demands an increase in the share of manufacturing in **GDP from 13.89% in 2024-25** (Source: MoSPI) to **25% by 2035** the Union Budget 2025-

26 announced the **National Manufacturing Mission**. The **NITI Aayog** drew a 10 year (FY 2026- FY 2035) strategic roadmap to drive India's transformation into a global leader in manufacturing by 2035. The Ministry of Heavy Industries initiated **SAMARTH Udyog Bharat 4.0** to facilitate and create an eco-system for propagation of Industry 4.0 set of technologies in Indian manufacturing. The steady rise in inflow of FDI in Indian manufacturing and setup of Global Capability Centres (GCCs) in the nation is resulting in fast-paced and continuous innovations in manufacturing technology.

LASER CUTTING MACHINES

Px Series Laser Cutting Machines are advanced tools engineered for precision cutting of pipes with varying diameters and shapes. Utilizing laser technology, these machines deliver clean, accurate cuts across a diverse array of materials, making them indispensable in industrial and manufacturing settings.

Fx Series Laser Cutting Machines represent state-of-the-art solutions for precision cutting across various materials. Equipped with the latest technology, these machines achieve exceptional precision and speed.

Enclosed in a fully covered body, they ensure a safe and clean environment for the operator. Constructed with high-quality materials, our series of laser cutting machines guarantees durability and longevity.

ADVANCED MATERIAL HANDLING SOLUTIONS

GR Cranes has emerged as a leading provider of advanced material handling solutions, delivering robust and efficient crane systems to a wide range of industries.

Known for its quality-driven approach, the company specializes in manufacturing EOT cranes, HOT Cranes, Jib Crane, Crane Kits, Hoists, and customized lifting equipment designed for reliability and performance. With a strong emphasis on safety, innovation, and timely delivery, GR Cranes consistently meets the evolving demands of modern industrial operations.

Supported by a dedicated team and cutting-edge technology, the company focuses on building lasting client partnerships while enhancing productivity. GR Cranes continues to grow as a dependable partner in industrial progress and infrastructure development.

5 AXIS LASER CUTTING MACHINE SIGMA SA 8080

Infused Systems Pvt. Ltd. is a leading provider of advanced laser technology and industrial automation solutions in India. We specialize in delivering high-performance laser marking and cutting systems designed for precision, speed, and reliability. With strong engineering expertise and a focus on innovation, we develop solutions that integrate seamlessly with modern manufacturing environments. Our capabilities include customized software development, smart automation, and Industry 4.0 integration to improve productivity and operational efficiency.

Product Range:

- Fiber Laser Cutting Machine
- Dot Pin Marking Machine
- Fiber Laser Marking Machine
- CO2 & UV Marking Machine
- 3D Laser Engraving Machine
- Hand-Held Welding Machine
- Automatic Welding Machine

ELECTRIC DISCHARGE MACHINES (EDM)

Ecoline Auto Systems Pvt. Ltd. is a leading Indian manufacturer specializing in Electric Discharge Machines (EDM), with more than 23 years of experience.

Established in 2003, the company offers Electric Discharge Machines, EDM Drill Machines, CNC Wire Cut Machines, Double Head Die Sinker Machines, and customized EDM solutions as per requirement. Known for quality and reliability, Ecoline delivers tailored industrial solutions backed by a skilled team.

With strong after-sales support, including installation, AMC services, and retrofitting of more than 2600 machines, the company ensures high performance, precision, and customer satisfaction across industries in India and global markets.

HIGH-PRECISION INDUSTRIAL MACHINES

Established in 2017, Advanced Tech Solutions is a leading supplier of high-precision industrial machines across India. We offer CNC EDM Wire-Cut, EDM Drill, CNC/ZNC EDM, Laser Marking, Tapping Machines, and Tool Re-Grinding solutions.

With 15+ years of expertise and 2000+ installations, we deliver reliable machines built with premium components ensuring accuracy and durability.

Our services include installation, operator training, software support, and fast after-sales service.

Based in Ludhiana, we provide complete machining solutions with a strong focus on quality, performance, and long-term customer satisfaction.

25 - 28 NOVEMBER 2026
RAJKOT, GUJARAT, INDIA

Concurrent with

Jointly Organized by

FRONTIER TECHNOLOGIES FOR ADVANCED MANUFACTURING

**TWO DECADES.
ONE DEFINING EXHIBITION PLATFORM.**

Jointly organized by the apex body of the local machine tools industry, and India's leading exhibition and investment summit organizer, the trade show has since 2006 and over nine editions, played a crucial role in the industrial

progress of the region. Consistently featuring global industry leaders alongside MSMEs, the exhibition has not only enabled rapid adoption and indigenization of world-class technology but has also been invaluable in

opening new markets and business opportunities for the regional industries. In this way, the exhibition has contributed to the rise of Rajkot as a major Indian manufacturing hub.

CNC TURNING MACHINE (SLANT BED), ROLL TURNING LATHE MACHINE & BIG BORE MACHINE

OM CNC Automation has 10+ years of experience and is a leading manufacturer of CNC (Computer Numerical Control) machines for various industries. With a commitment to innovation and quality, the company has established itself as a trusted name in the field of precision engineering.

OM CNC Automation was founded with a vision to provide advanced manufacturing solutions to a wide range of industries and assistance with installation, training, and maintenance, ensuring that customers get the most out of their investment.

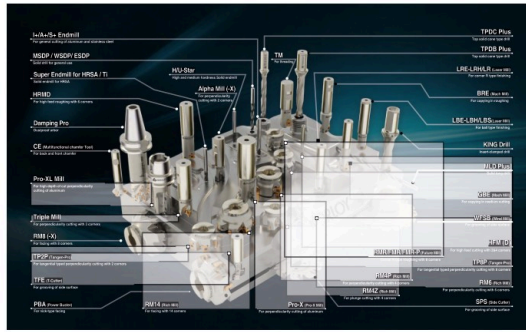

Product Range:

- CNC Lathe Machine - Flat Bed
- CNC Lathe Machine - Extra Heavy Duty
- CNC Turning Machine - Slant Bed
- CNC Roll Turning Lathe Machine
- CNC-VMC Drill Machine - 2/3 Axis
- CNC Big Bore Machine

KORLOY MILLING TOOLS

MATCUT ENTERPRISE, are proud to be the authorized distributor and dealer of KORLOY cutting tools and DINE holding systems for the entire Gujarat region since 2013, and for the Andhra Pradesh and Telangana regions from 2024.

We have dedicated sales and technical representatives across all major industrial zones in Gujarat.

Our team comprises well-informed and experienced technical professionals with strong backgrounds in machining. We are committed to delivering value-added solutions, enhancing productivity, & providing reliable technical support to our customers.

We also offer product training to ensure our clients achieve optimal performance using our tools.

NC & CNC PRESS BRAKE, SHEARING AND SHEET METAL WORKING MACHINE

Jayshree Machine Tools Pvt. Ltd. manufactures "Kishan" brand NC and CNC Press Brake, Shearing and Sheet Metal Working Machine for last 33 years in India.

The company based in Metoda GIDC, Rajkot, Gujarat has pioneered and introduced the CNC Press Brake in India.

The company led by technocrats has also designed and manufactured Hydraulic Shearing with in-house efforts and has installed nearly 5000 CNC Press Brake, Hydraulic & Mechanical Press Brake and Shearing, Hydraulic Press, Power Press in India and abroad.

Jayshree Machine Tools Pvt. Ltd. has also successfully designed and manufactured SPM machinery and plants for manufacturing etc.

CNC MACHINES

Founded by Mr. Pravin J. Sojitra, Tirupati CNC Products brings over 36 years of industry expertise and 5000+ global installations. We are a trusted name in precision engineering, offering a comprehensive range of CNC machines known for performance, reliability, and industrial-grade durability.

Product Line:

- Flat Bed CNC Lathes (Standard & Extra Heavy Duty)
- Slant Bed CNC Turning Centres
- CNC Pipe Threading Machines (Big Bore & Twin Chucks)
- CNC Roll Turning Lathes
- VMC Drill Machines (2/3 Axis)

With spindle bores up to 500 mm, turning diameters up to 3000 mm, and machining lengths up to 10,000 mm, our machines are built to serve demanding sectors such as oil & gas, railways, automotive, and general engineering

USED MACHINERY

LAXMI METAL & MACHINES, established in 2004 in Italy and in 2017 in India, is a leading supplier of second-hand machine tools sourced from Italy, serving the Indian market.

We are specialised in gear machinery and a wide range of CNC and conventional machine tools, from milling & turning, to grinding and broaching, and more.. All the machine tools we offer are directly inspected from our team, and supplied to our Indian customers with all the services needed.

We also do the full machine retrofit in house, including CNC retrofit (with FANUC or SIEMENS) and also overhaul of the mechanical components if clients wants.

INDUSTRIAL PRODUCTS

Founded in 2014 in Rajkot, Gujarat, Amrut Engineering was established with a vision to deliver innovative and reliable industrial solutions. Led by founders Chintan Khunt and Sumit Khunt, the company focuses on manufacturing high-quality machines that set industry benchmarks.

Our product range includes Hydraulic Power Press Machines, Press Automation Systems, Decoilers, Straighteners, CNC Machines, and Special Purpose Machines (SPM), all customized to client requirements. Backed by a skilled team and advanced manufacturing facilities, we ensure precision, durability, and performance in every product. Our machines are widely recognized for their efficiency, low maintenance, easy installation, and long service life, making us a trusted name in the industry.

Indian Construction Equipment Market

The Indian construction equipment market has seen an unprecedented growth since 2019 after the government of India announced the **National Infrastructure Pipeline (NIP)** with an outlay of Rs. 111 trillion (revised to Rs.168.93 trillion). Also, mega projects like **Bharatmala Pariyojana** and **Smart Cities Mission** have been undertaken to lay the infrastructure foundation of Viksit Bharat in 2047.

The Indian construction equipment market is reportedly growing at a **CAGR of around 8%** and expected to reach **USD 9.24 billion in 2026** and **USD 13.61 billion by 2031**. Western India accounts for about 20% of the national market with Gujarat a key regional market alongside Maharashtra, Tamil Nadu, and Karnataka.

2030 Commonwealth Games

Gujarat hosting the centenary edition of this event will give a massive fillip to the construction industry growth that is already driven by government-led projects notably the Special Investment Regions (SIRs) including the Dholera SIR, Dholera international Airport and the mega national projects like Dedicated Freight Corridor (DFC) and Delhi Mumbai Industrial Corridor (DMIC). Rapid urbanization and industrialization of Tier II and III cities and the high market receptivity to adoption of latest technology are major growth drivers.
