INDIA MACHINE TOOLS SHOW

11th EDITION • 2027

14 • 15 • 16 • 17 MAY

YASHOBHOOMI CONVENTION CENTRE
DWARKA, NEW DELHI, INDIA

ENABLING INDIA'S GLOBAL LEADERSHIP IN ADVANCED MANUFACTURING

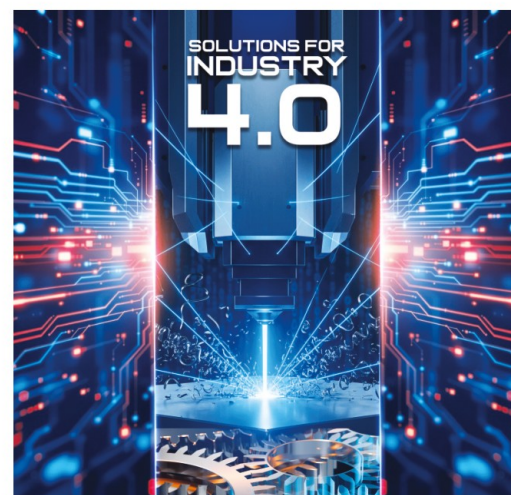

In ten editions over two decades, INDIA MACHINE TOOLS SHOW, held regularly in the Indian capital has emerged as a credible platform for the latest update of global advancements in manufacturing technology. With a pan-India reach from the capital city, the trade show is marked in the calendars of all stakeholders of India's industrial progress – manufacturers of engineering & capital goods, end-user manufacturing industries as well as policy makers from the government and trade bodies

AUTOMATION & MANUFACTURING SHOW is dedicated to showcasing the frontier technologies driving the smart manufacturing revolution in India. The show connects Indian manufacturing with solution providers of digitalisation in manufacturing. Among the exhibitors, the gathering of global industry leaders alongside MSMEs catalyses innovation and indigenization. Four frontier technologies that are disruptive, actionable, scalable, and aligned to India's long-term manufacturing vision - Artificial Intelligence and Machine Learning, Advanced Materials, Digital Twins, and Robotics - have been identified by NITI Aayog for focused deployment in five core clusters incorporating thirteen high impact sectors.

SCREW AIR COMPRESSOR (TWO STAGE)

The COLT Two-Stage Screw Air Compressor is engineered to deliver superior energy efficiency, reliability, and high-performance compressed air for demanding industrial applications. Designed with European-quality standards, it features a premium IE4 efficiency permanent magnet motor that reduces power consumption while ensuring consistent output. Advanced safety protections, including single phasing, motor overload, current imbalance, over-voltage, low-voltage, and high-pressure tripping, provide secure and uninterrupted operation. Available from 30 to 200 HP (22-160 kW), with pressures ranging from 8 to 13 Bar and airflow up to 907 CFM, it is ideal for textile, pharmaceutical, food processing, power, packaging, electronics, chemical, and metal fabrication industries.

ONLINE UPS SYSTEMS FOR CNC & MACHINE TOOL INDUSTRY

For over 25 years, Enventa Power Technologies Pvt. Ltd. has delivered reliable power backup solutions with 35,000+ installations across India, including 2,000+ in the machine tools sector. Our DSP-Based Dual Core Online UPS Systems protect CNC machines, VMCs, laser cutting machines, PLCs, and other critical equipment from voltage fluctuations and power interruptions.

Key Features:

- High inrush load handling
- Touchscreen HMI with fault/event logging
- Intelligent battery management
- Up to 94% efficiency
- N+1 parallel redundancy

Supported by a strong PAN India service network for maximum uptime and operational reliability.

PRECISION TOOLING

OSG India, a trusted global leader in precision tooling, continues to set benchmarks in machining innovation. The AT-1 Carbide Thread Mill ensures high-quality threading in a single pass, while the AE-VMS Anti-Vibration Carbide End Mill delivers superior milling with reduced chatter. The ADO-TRS 3-Flute Carbide Drill with Oil Hole enhances durability and chip evacuation, and the A-TAP Powder Metallurgy HSS Tap offers versatile, high-efficiency threading. Together, these solutions embody OSG's commitment to innovation, quality, and service — shaping dreams with cutting-edge technology for modern manufacturing excellence.

INDUSTRIAL POWER SOLUTIONS

We are a leading Indian manufacturer and exporter of ISO & CE certified industrial power solutions since 1963. Our range includes Servo Voltage Stabilizers, Distribution & Power Transformers, OLTC / Isolation / Furnace Transformers, Electroplating Rectifiers, Online UPS, APFC Panels, Air Plasma Cutting, Laser / TIG / MIG / ARC Welding, and Projection / Seam / Spot / Pneumatic Welding Machines. With 60+ years of expertise, we've served organizations like BrahMos, IIT Kanpur, Ministry of Defence, PNB, SBI, and Canara Bank. We'd welcome the opportunity to support your transformer, stabilizer, welding, or rectifier requirements with tailored technical and commercial solutions.

CNC AUTOMATION SOLUTIONS

We are an Authorized Channel Partner of "MITSUBISHI" CNC System. We have a good team of qualified engineers for Retrofitting (Electrical/Mechanical) of VMC, HMC, VTL, Boring Machine, Grinding Machine, Turning Lathe, Hobbing Machine, Different types of SPMs, Pipe Bending Machines. We manufacturing Drag Chain, Cable Carriers, Separators and Cable Tray in different sizes "YAKOS" Brand. We are also giving Service for Laser Calibration, Ball Bar Calibration and Rotary Calibration by "RENISHAW" system. We are also dealing in "RENISHAW" Scales and Encoders. We have also started selling "NITTO KOHKI" COUPLERS. Backed by a dedicated team and a strong service network, we ensure timely delivery, competitive pricing, and reliable after-sales service.

ONLINE UPS – Rating 3KVA to 300KVA

Experience uncompromising power protection with Omcam's advanced Three-Phase Online UPS Systems, engineered to deliver reliable and uninterrupted power for mission-critical industrial applications. Featuring advanced microprocessor control, branded isolation transformers, an IGBT-based inverter, and an SCR smart charger, these systems provide clean, stable, and efficient power while protecting sensitive equipment from voltage fluctuations, power disturbances and outages.

Features:

- True On-Line Double Conversion Technology
- High Efficiency up to 94%
- IGBT-Based Inverter & SCR Smart Charger
- Pure Sine Wave Output with Isolation Transformer
- Omcam Regenerative Load Management (OGLM)
- Wide Input Voltage Range (340V-460V)
- Static & Manual Bypass (Optional)
- Intelligent Protection and Advanced Monitoring Features

FRONTIER TECHNOLOGIES FOR ADVANCED MANUFACTURING

RAJKOT INDIA'S MACHINE TOOLS HUB 'ATMANIRBHAR' THROUGH 'MAKE IN INDIA'

The transformation of the local machine tools industry from being an importer of technology at the turn of the century to becoming an exporter of most sophisticated CNC machine tools to advanced countries today, is a truly inspiring example of enterprise and engineering genius.

Rajkot is today a major Indian manufacturing hub integral to global supply chains. The increasing local availability of advanced machine tools ignited the growth of all other regional industries like auto components, diesel engines, bearings, pumps & valves, castings & forgings, and various industrial equipment.

TWO DECADES. ONE DEFINING EXHIBITION PLATFORM.

Jointly organized by the apex body of the local machine tools industry, and India's leading exhibition and investment summit organizer, Rajkot Machine Tools Show has since 2006 and over nine editions, played a crucial role in the industrial progress of the region.

Consistently featuring global industry leaders alongside MSMEs, the exhibition has not only enabled rapid adoption and indigenization of world-class technology but has also been invaluable in opening new markets and business opportunities for the regional industries. In this way, the exhibition has contributed to the rise of Rajkot as a major manufacturing hub.
